

Are YOUR products the same but different? **Automate!**

Design Automation for Companies that Engineer-to-Order

- Do you design and manufacture products on a theme?
- Could your products be defined by a set of rules and equations?
- Do you have repetitive design tasks that could be automated?
- Do you want to be able to specify custom products and variations easily and accurately?

About DriveWorks Solo for SolidWorks®

Use DriveWorks Solo to automate repetitive design engineering tasks. Generate the outputs and documentation you need to manufacture and sell variations of your products automatically. Outputs can include 3D models, 2D drawings, template documents e.g. sales quotes and covering letters.

DriveWorks provides several benefits:

- **Powerful Design Automation**
Specify to order and satisfy customer requirements—all based on YOUR rules.
- **Time Saving**
With DriveWorks, data is entered only once, saving valuable time and enabling production to commence as soon as the order is placed.
- **Important Aid to Quality Control**
Because the output is based on specified rules, results are consistent and accurate, reducing the risk of costly errors.
- **Fast Response to Customer Enquiries**
Dynamic Quotations can be quickly created in response to enquiries and all based on the customer's individual requirements, as well as company profitable targets.
- **Valuable Sales and Marketing Tool**
Generation of 3D models and 2D drawings enables the customer to quickly 'see' their product, and so aids the sales process.

DriveWorksXpress

Basic Rules Based Design Automation

Design Automation Wizard included in EVERY seat of SolidWorks®

DriveWorks Solo

Design Automation for SolidWorks® Users

- Configure & Preview inside SolidWorks®
- 30 day FREE trial
- First year subscription included
- Sample projects included
- Training & How-To video clips online
- Requires SolidWorks®

DriveWorks Pro

Design Automation & Sales Configurator Software for use Enterprise-wide and Online

- Modules available:
 - Administrator
 - User

- Partner program

The benefits of a complete Design to Order Solution with software seats to suit each company department and scenario, from the Drawing Office to the web, from skilled engineers to non-technical staff.

Configure your products how you want them, whether it is inside SolidWorks®, interactively, locally or via the web.

DriveWorks Solo

DriveWorks Solo is a SolidWorks® Certified Gold Partner Product. It sits inside SolidWorks® in the Task Pane and incorporates the look and feel of SolidWorks® to provide a truly integrated experience.

Projects—Quick to Set Up & Run

Start with your SolidWorks® Model, then capture items that can change such as dimensions and features. Build your rules, create your custom forms, then Run.

What can you expect from DriveWorks Solo?

The principle in DriveWorks is straightforward—set up your project, automate and run. Decide what you want to control and drive. You can drive Dimensions, Features, Custom Properties, Drawings, Replacement Files and File Formats. You can generate all your manufacturing drawings & data as well as a sales quote and covering letter.

Creating custom forms with dynamic navigation is easy in DriveWorks Solo.

There are tools for aligning and displaying controls, and you can include images and messages on your forms to give feedback and guidance when filling out the form.

Preview your models, drawings and documents in DriveWorks Solo

The power of automation lies in the DriveWorks Rules Wizard. The interface is logical and intuitive. Rule Building uses Excel-style syntax meaning no custom code or programming knowledge is required. Rules are used by DriveWorks to scale 2D drawings, control views, dimension positions and much more.

Graphical representations in the DriveWorks Solo Drawing Wizard make it easier to see which view you are controlling at any time.

Data from other data sources and spreadsheets can be copied, re-used and automated in DriveWorks Solo.

DriveWorks Solo can be used to assist Sales too. Respond to sales enquiries fast with quotes, general arrangement drawings and compelling images of custom products.
